Responsible Sourcing Policy

Kingerlee
Craftsmanship in construction

Kingerlee Limited is committed to protecting and enhancing the environment through the use of responsibly sourced, sustainable materials, products and services.

Whenever Kingerlee Limited has the responsibility or opportunity to influence the choice of materials and /or services we will endeavour to apply the following principles

- Materials and services with the lowest environmental impact will take precedence
- Materials and services will be sourced locally
- The legal and ethical validity of materials will be verified through recognised certification schemes
- Hazardous materials, including refrigerants and insulants with high global warming potential, will be avoided in favour of non-hazardous materials with low environmental impact
- The use of water, energy and fuel will be kept to a minimum
- Waste will be reduced through the re-use of materials and the use of materials with a high recycled content, enhanced durability or recyclability

In order to better achieve these principles we will

- Develop our knowledge and understanding of environmentally preferable materials
- Engage with the supply chain to identify sustainable procurement materials and solutions
- Share this knowledge across the business

This policy will be communicated to all employees and relevant sections communicated to contractors working for the company.

This policy is available to the public on demand and via the company website.

Signed: _____ Date: 1 July 2018

Darren Arekion (Managing Director)
Kingerlee Limited
