### BUILT TO LAST

A TRADITION OF QUALITY SINCE 1868

Established in 1868, our family business has been providing high quality building around Oxford for five generations. Just like our construction projects, our company has been built to last. While our commitment to quality has never changed, we're continually developing our skills and technical knowledge to provide a client focussed professional service.

### KEEPING YOU IN CONTROL

SERVICE YOU CAN TRUST

From the moment you first contact us, to the day your project is completed, you'll receive an attentive service that keeps you informed and in control every step of the way. We'll work with you to identify your needs and find a solution that offers you the best possible value. Following project completion, we'll keep in touch with you to make sure you're entirely satisfied with our work throughout the defects liability period.

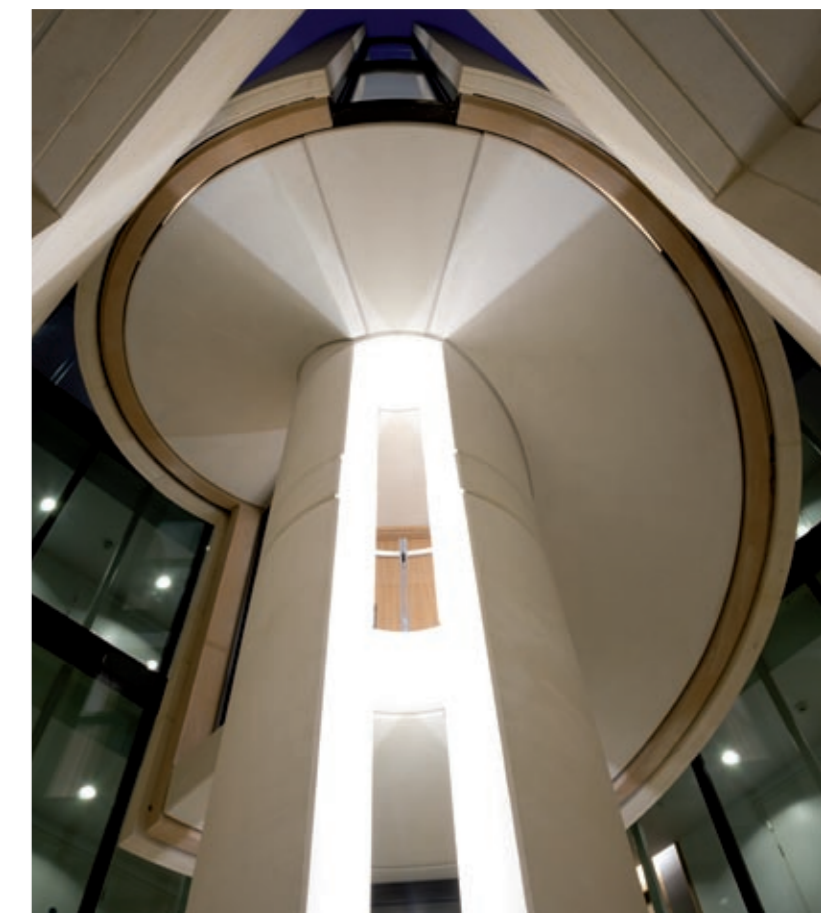

“Continually developing our skills and technical knowledge to provide a client focussed, professional service.”

### TRADITIONAL SKILLS

MODERN TECHNIQUES

We recognise that we are only as good as our people. That's why the personal and professional development of all our staff is very important to us. We employ over 120 staff; all of them receive ongoing training to ensure we continue to offer both the traditional skills and modern techniques necessary to deliver great value service. Our investment in staff development has been endorsed through achievement of Investor In People status.
