

MEP Design Manager

Full Time

Established in 1868, Kingerlee has been providing high quality buildings in Oxfordshire and the surrounding counties for five generations. We are a family firm with great values and a forward-thinking, energetic approach. We have a passion for construction and thrive on high quality, challenging projects.

Our experience is wide-ranging and includes independent schools, luxury bespoke private homes, university and college projects, hotels & leisure schemes. We have an enviable track record in new build, conversion, and restoration projects, large and small. We operate in Oxfordshire and the surrounding counties. Supported by an established supply chain, we have the skills to undertake all types of building projects up to £25 million.

In order to support our growth programme, we are looking to recruit an ambitious MEP Design Manager. You will be responsible for managing Mechanical, Electrical and Public Health design and coordination process for construction projects across a diverse range of sectors. The role will require full project lifecycle technical support from pre-construction through to practical completion.

Key Responsibilities

- Assess tender returns to ensure MEP package accurately defines scope and design responsibility.
- Attend pre-order meeting ensuring sub-contract orders are compliant with contract and programme requirements.
- Provide support for sequencing and programming the installation of MEP services.
- Monitor MEP procurement and provide support to project delivery team.
- Organise and chair MEP workshops to provide technical solutions.
- Review and coordinate design programmes, information release schedules and inspection test plans.
- MEP design coordination with building structure, fabric, and constraints.
- Review and comment on MEP design including drawings and technical submittals.
- Review of energy strategy including compliance with current regulations.
- Assist site team in providing resolution to technical queries.
- Complete commission ability review.
- Provide technical support during the commissioning process and assist in programming.
- Assist the commissioning process to ensure compliance with design parameters.
- Attend witnessing and client demonstrations.

About You

- Qualifications within Building Services as appropriate for the role.
- Technical knowledge with the ability to review technical information.
- Competent planning, procurement, and programming principles.
- Understanding of design stages, CDP's, processes, and responsibilities.
- Commercial awareness to review sub-contractor design and implement best practice.

In return Kingerlee offer the following

- 25 days paid holiday + Bank Holidays.
- Long service leave – additional holiday entitlement after 3 years’ service increasing to max 30 days after 10 years’ service.
- Pension scheme with 6% employer contributions
- Access to salary sacrifice car scheme after successful probationary period.
- Life Cover
- Private Medical Cover
- Access to the Employee Assistance Programme which as well as providing wellbeing support also includes access to a virtual GP and store discounts.
- Ongoing training and development including an individual development plan.
- Regular 1:1s with your line manager to provide ongoing feedback.
- We will cover the membership fees of at least one professional body.

Salary

Competitive salary and benefits.
