

## Site Manager

### Full Time

Established in 1868, Kingerlee has been providing high-quality buildings in Oxfordshire and the surrounding counties for five generations. We are a family firm with great values and a forward-thinking, energetic approach. We have a passion for construction and thrive on high quality, challenging projects.

Our experience is wide-ranging and includes independent schools, luxury bespoke private homes, university and college projects, hotels & leisure schemes. We believe that we have an enviable track record in new build, conversion, and restoration projects, large and small. We operate in Oxfordshire and the surrounding counties. Supported by an established supply chain and our experienced workforce, we have the skills to undertake all types of building projects up to £25 million.

### Job Role

Candidates must have good experience working in a Site Management role for large or mid-size main contractors, as opposed to housing developers or directly for clients; we are looking for people keen on a permanent and long-term role.

The role will require a manager who is able to manage with little or no supervision, utilising previous experience to complete our projects on time and within budget with a focus on quality of delivery and health and safety. Some roles are for project leads, others are to join a larger team.

There are several positions available working on high quality residential, Oxford college, hospitality, and other sectors too. Our work includes heritage and listed build refurbishment as well as new-build schemes and projects vary from £1m to £40m. Work experience is of course relevant but an ability to work hard, learn and have a positive attitude towards career progression are just as important.
